Objective

Aspiring Web Developer with hands-on experience in React, JavaScript, and animation libraries like GSAP. Passionate about building responsive and dynamic websites. Also skilled in AR/VR and Unity for immersive experiences.

Skills

Programming: JavaScript, C++, C#, Python

Web Technologies: React.js, HTML, CSS, GSAP, Git

Tools Platforms: Unity, Blender, Vuforia, Photon Unity Networking

Other Skills: Web Development, UI/UX Design, AR/VR Development

Experience

Unity Developer — ASTARIX

Dec 2023 – Feb 2024

- Developed an AR jewelry app for iOS using Unity and Vuforia, achieving a 20% reduction in load time.
 - Collaborated with the Android team to maintain cross-platform consistency.
 - Optimized AR rendering performance by implementing efficient shaders and lighting models.
-

Projects

CAN Launch Site (HTML/CSS/JS)

[\[GitHub\]](#)

- Developed an advanced UI-heavy site with rich animations using JavaScript (no frameworks).

User Dashboard UI (HTML/CSS/JS)

[\[GitHub\]](#)

- Created an admin-style dashboard with charts, cards, and table layout using HTML, CSS, and JS.

Platinum Credit Card Landing Page (React + GSAP)

[\[GitHub\]](#)

- A modern and elegant frontend design for a Platinum financial card landing page, built using React.js and animated with GSAP + ScrollTrigger.

Tank Strike (Maze-Based Strategy Game)

[\[GitHub\]](#)

- Designed a Unity-based tank game focused on strategic movement and enemy engagement inside a maze environment.
 - Emphasized strategic gameplay over real-time combat with multiplayer features.
-

Achievements

- Cisco Certified Network Associate (CCNA) – Networking and Routing Specialist.
- Organized AR/VR workshops for over 400 peers as Coordinator of the VR/AR/MR Club.
- Secretary of the VR/AR/MR Club in our college.
